Foot & Ankle Solutions

TOTAL ANKLE REPLACEMENT
Time is a precious commodity.
This is true for the patient, the surgeon, and the hospital. The goal of PROPHECY® Preoperative Navigation Guides is to reduce the number of steps required to accurately and reproducibly perform total ankle surgery. Fewer steps means less time in the OR.

PATIENT-SPECIFIC

Each set of PROPHECY® Alignment Guides are patient-specific and designed to precisely match the unique surface of each distinct patient’s anatomy. This means a specific sizing and alignment plan can be tailored to each individual. Wright is the only company that can provide this level of service for your total ankle needs.
• Reduces Surgical Steps
• Reduces Need for Fluoroscopy
• Increases OR Efficiency

Published Results

**2° and 1.4 mm**
“Average variation between preoperative and postoperative implant placement was less than 2° and 1.4 mm in all specimens tested.”

*Berlet GC, Penner MJ, et. al. FAI 2014*

**±3°**
“Postoperative weight bearing alignments for all TAA cases were within ±3° of the predicted coronal and sagittal alignments from the CT scan–derived surgical plans.”

*Hsu AR, et. al. FAI 2015*
INFINITY®
Total Ankle System

• Low-Profile Bone-Conserving Design
• Multiple Tibial Component Options to Fit Patient Anatomy

Chamfer-Style Talus
Flat-Cut-Style Talus
INBONE® II
Total Ankle System

• A Replacement Ankle for Your Patients Needs
• Primary, Deformity, and Revision Capability

2–8 options of stem sizes of various diameters

432 Combinations of Tibial, Talar, and Poly implant options
INNOVATION AHEAD OF ITS TIME

WRIGHT – CREATING MANY FIRSTS THROUGHOUT THE YEARS.

2005
Wright introduces the first and only intramedullary guidance.

2008
Wright Medical completed its acquisition of INBONE® Technologies.

2010
Wright launches INBONE® II and hits the market by storm.

2012
Wright introduces PROPHECY® INBONE® Total Ankle System, the first and only Preoperative Navigation system available for Total Ankle Arthroplasty.

2013
Wright added to a long list of "firsts" by offering the first and only total ankle with 2 to 8 piece stem variation clearance.

2014
INFINITY® Total Ankle System entered the market in 2014 becoming the first resurfacing type implant to offer the potential benefits of preoperative navigation.
